Our Partners

Classera Learning Management System

Classera contributes effectively to enhancing our online education process through its advanced Learning Management System (LMS). Classera provides a digital.. interactive learning environment that leverages artificial intelligence for personalized learning.. increasing student engagement and effectiveness in distance learning. With its user-friendly interface and ongoing technical support.. Classera helps ensure a seamless and efficient educational experience.. enhancing learning outcomes for both students and instructors.

Our Partners

Obeikan Education in Collaboration with E-planet

Obeikan Education.. in collaboration with E-planet.. is a key partner in enhancing English language learning for academy students. Through the delivery of advanced educational programs and the use of modern digital technologies.. this partnership aims to elevate students' language proficiency to meet the demands of the job market. Interactive learning tools and digital platforms provide an effective learning experience that helps students acquire advanced English language skills.. preparing them to excel in various professional environments. This partnership reflects the joint commitment of Obeikan and E-planet to support the development of students' competencies and empower them to meet the challenges of today's labor market.

Our Partners

Oxford University

Our distinguished academic partner is the English Language Teaching department of Oxford University Press (Oxford University Press ELT). Oxford University is renowned for its rich heritage in education.. and its ELT division reflects this excellence by providing innovative and high-quality educational resources designed to meet the needs of language learners of all levels. This contributes to the development of our academic programs and elevates the quality of education we offer to our students. Our partnership with Oxford University enables the academy to integrate certified and effective content into our educational pathways.. thereby enhancing our learners' linguistic abilities and supporting their achievement of their academic and professional goals.
